

Frozen Drive Sheet

Student Name: _____

After four hours of driving, it has been determined by our instructors that your child would benefit greatly from some additional hours of driving with a parent before advancing to the expressway portion of the program. At this time we are going to “Freeze” your student’s final two hours of driving. In the meantime, we ask that you complete at least 6 hours of behind the wheel training with your child.

- Two hours spent on making left and right turns in a residential area.
- Two hours being spent driving on two lane roads (paying close attention to speed control and lane centering.)
- Two hours being spent on making lane changes (this can be simulated on a quiet residential road until you feel confident enough to take them onto a main road).

At the end of the six hours, we will schedule the final two drive times for your child. If you feel they need additional practice in the car with a professional, you may purchase additional hours of driving with us for \$ _____ an hour please contact your classroom instructor for availability. If you have any questions, or would like any tips on proven training techniques please contact your child’s classroom teacher for further assistance. The number is located in your students textbook. Thank you for your business, and we hope to see you again soon.

Please date and sign for each of the completed hour, once completed please call your classroom instructor to reschedule the remainder of your student’s drive times. Please turn this sheet in at that time.
